CAPABILITY STATEMENT

Walking women in Fresno toward stability.

Restoring pride. Honoring dignity. Affirming self-worth.

OUR MISSION

To restore the pride, honor the dignity and affirm the self-worth of women in Fresno through housing support, career readiness, mentorship and life skills.

OUR VISION

A community where every woman who walks through our doors walks out with a roof over her head, a career in her hands, and a home she can call her own.

Who we are

Sisters Helping Sisters Community Foundation is a Fresno-based nonprofit serving women facing housing instability, many of them leaving crisis, domestic violence or poverty. We walk alongside each woman with practical support and real relationship, helping her move from instability toward safe housing, employment and lasting independence.

We opened the doors to our Fresno home on May 29, 2026, joined by District 2 Council President Mike Karbassi and community partners.

Behind every number is a woman, a mother, a daughter or a sister.
